REPORTS

183/21 Report from County Councillor.

CC Constance submitted a written report.

For information. Emailed to the A420 Parish Councils, Transport Planning Officers and Cabinet Member for transport policy

It's important to alert all to the ambitions of Swindon Borough Council (SBC) for the A420 between Swindon and Oxford. I am emailing a copy of my comments to the local Parish Councils on news that SBC is proposing to dual the A420, no doubt to meet their ambitions to develop a freight corridor but at the expense of Oxfordshire villages.

This will be news that concerns everybody, so here are my comments in response:

The A420 was due to be dualled in time of Blair Government, but the funding was redirected to the north at short notice. Any such scheme is unlikely to be funded now with Governments major 'levelling up' agenda. Even if it were to be seen as do-able, planners would have to explain what would be gained by moving traffic faster to the Botley roundabout and A34, which is already the most congested road system in the SE.

LTCP: Important to note that OCC is preparing to consult first stage of its next Local Strategic Transport Plan in November/December 2021. Detailed transport plans will be consulted by end of 2022

England Economic Heartland (EEH) regional study: A34/A420 road corridor study is also planned for 2022 (it was my initiative to get A420 included in this urgent study) which is the best opportunity to get proper Government attention to the real need to increase capacity on A34, probably by a relief road for strategic north- bound traffic with no business in Oxfordshire.

I have made sure to get a seat on the OCC Cabinet Advisory Group on Transport to press the case for A420 as a 'local road' both in OCC strategy EEH and in the region. (I will write a separate piece on the 'local road' issue)

In OCC we are very aware that Swindon is working to place itself in the regional arc (Oxford to Cambridge) with its offer of space for new commercial development and more affordable housing. They will promote dualling A420 in service of that ambition, but as it runs through Oxfordshire we residents will have a lot to say about any such plan. Mostly, I do not see that it improves traffic congestion around Oxford, and it would be a lot of money to spend on more congestion!

MEANWHILE however this is a recognition that the A420 is inadequate for its current purpose, and I will work to take advantage of that. As Swindon have made clear, the capacity of the A420 is too limited to carry the traffic they assume (and intend in future) which calls for proper management of the current traffic.

I will repeat (over and over again!) that OCC's current transport strategy (LTP4) is that Swindon's (HGV) traffic should use the M4/A34: the A420 is reserved for DIVERSION TRAFFIC only. If we can get that properly enforced that would be a real gain for our villages.

184/21 Report from District Councillor. None.

185/21 Update from Chairman. None.
