Technical information about this website's accessibility

Content that's not within the scope of the accessibility regulations

Many of our older PDF documents do not meet accessibility standards - for example, they may not be structured so that they are accessible to a screen reader. The accessibility regulations do not require us to fix PDFs or other documents published before 23 September 2018 if they are not essential to providing our services. However, if there is a particular document you need converting, please let us know and, if at all possible, we will update it.

Any new PDFs we publish will attempt to meet accessibility standards.

We will be happy to provide any documents in Word or Excel (as appropriate) on request.
